Rafters & Water Woman | Steyr

Raftsmen's tour
On this walk through Steyr, learn how the waters of the Enns and Steyr rivers influenced life in the city. Places for drawing water played an important role in the everyday life of the population. The rivers, on the other hand, were the source of economic prosperity.

€ 160.- + 20% tax including flood insurance | max. 30 people
Booking: Wolfgang Hack, Austria Guide Steyr | phone 0043 676/9165165

Water Woman Exclusive
During one of his trips along the Enns River, raftsman Wolfgang reawakened the water woman from Steyr, who had long been considered lost. With her beautiful robe and enchanting appearance, he could not refuse her wish to return to her old home and restore it. In the mystical, old cellar room with a clay floor, she sits on her throne carved from driftwood and watches over the water dwellers.
If you venture into this clay cellar, the Steyr water woman will read your palm and give you lucky pebbles (sweet/edible) from the Steyr.

Price: € 130.- | Duration: 30 min | Booking: Simone Rossacher | phone 0043 664/1708080

Adventure walk: Raftsmen & Water Woman
On this walk through Steyr, learn how the waters of the Enns and Steyr rivers influenced life in the city. Places for drawing water played an important role in the everyday life of the population. The rivers, on the other hand, were the source of economic prosperity. At the end of the tour, visit the Steyr water woman.

In the footsteps of the salt workers | Bad Hall
On this tour, you will learn how the spa and health resort of Bad Hall came into being and discover the miraculous effects of the iodine-bromine healing waters.
The tour starts at the tourist office in front of the Kurhaus. The route takes you down to the "cradle of the spa," the millennia-old Tassilo Spring, with the salt boiler and the bread baker.

Nobles, entrepreneurs, princes, and industrialists met in the spa gardens, deliberately avoiding the poor people and scabby children who only received healing baths during the night. The rich villa culture with its famous guests is the focus of the walk through the venerable English spa gardens, where disrespectful ne'er-do-wells also roamed. The spa doctor treated all kinds of illnesses, including syphilis or lues, which was whispered about behind closed doors. Exceptional successes have been achieved since fundamental research into eye treatment began. The 90-minute tour ends in the Forum Hall of the City Museum with an immersion into the old spa culture and the great successes of the Paracelsus Institute.

STEAM LOCOMOTIVES, MUSEUMS, DEMONSTRATION OPERATIONS & FACTORY TOURS

Ride on the Steyr Valley Museum Railway through the nature reserve

Austria's oldest 760 mm narrow-gauge railway. The 17 km long route connects Steyr with Grünburg and Steinbach/Steyr. It runs through beautiful floodplain landscapes along the Steyr, one of Austria's cleanest rivers. The locomotives and carriages have been restored with great attention to detail, so that you would hardly believe that our little train has been in service for over 130 years. Bicycles are transported free of charge!

Tunnel of Remembrance | Steyr
Housed in a former air-raid shelter, which had to be built by concentration camp prisoners near the confluence of the Enns and Steyr rivers from 1943 onwards, the exhibition focuses on the history of National Socialism in Steyr. Special attention is paid to personal accounts of former forced laborers and concentration camp prisoners, whose fates are at the heart of the exhibition. The history of the resistance in Steyr and how the Nazi past has been dealt with from 1945 to the present day are also prominent themes.

Reichraming Woodcutter Museum

As early as the end of the 14th century, timber was being felled in the forests of the Reichraming Hintergebirge mountains. The timber was transported by water along the drift paths. It was not until the First World War that a forest railway was built, which ran from the 'Wallerhütte', now the Holzknecht Museum, to the district of Schallau, among other places.
The Wallerhütte, which was once the evening gathering place and, during the winter months, a second home for the woodcutters, now houses the Reichraming Woodcutter Museum. The exhibition documents their way of life and work in the 19th and 20th centuries with tools, models and images. On the upper floor of the museum, historically valuable brass objects and an impressive model of the Reichraming brass factory enrich the museum's exhibition.
Furthermore, the special exhibition 'The fossilised world beneath the woodcutters' feet' allows visitors to marvel at remarkable fossils from the Reichraming Hintergebirge mountains.

An artistic apiary has been set up in the museum's outdoor area to provide an insight into the beekeeping practised by many woodcutters. Visitors also have the opportunity to taste original Holzknechtnock'n.

Opening hours for the museum and museum café: June to September, Sundays from 1 p.m. to 5 p.m. Visits and guided tours are also possible outside opening hours by arrangement.

Katzenstein Mill Open-Air Museum | Troadkasten | Frame saw | Weyer

On the Gaflenzbach stream in Weyer, just before it flows into the Enns, you will find this old, fully operational mill dating from 1820. It was dismantled at its old location and rebuilt true to the original on the Gaflenzbach stream by the Katzensteiner family in 1978. See for yourself how romantic this destination is. The Katzensteiner mill and its surroundings, including the Troadkasten and Gattersäge, have been lovingly renovated in recent years. In the Schaumühle, you can see how flour and semolina are produced. The Troadkasten shows the history of milling.
Frame saw – This wooden frame saw, built around 1830, was in operation in Weyer (Aignersäge) from 1904 to 1953. A model shows the entire operation of a frame saw. Troadkasten – dating from 1850, showing the history of milling.

Mining and Local History Museum Miners' House Unterlaussa

In the faithfully reconstructed 'Knappenhaus vom Blahberg' (Blahberg Miners' House), you can experience a journey through time and learn about the
mining history of the region. Iron, coal, jet and bauxite were the raw materials that were mined here. Dr Oskar Kortan, a former mining engineer in our district,
has provided the Unterlaussa Miners' House with numerous mining artefacts from all over the world, some of which are up to 6,000 years old.

Upstairs, special exhibition: Classic motorcycles from the region.
All of the motorcycles were owned by residents of Unterlaussing during their lifetime. So these machines are returning to their old home, at least for a short time. Motorcycle collector
Christian Michtner from Admont has collected these gems over many years of passionate collecting and is now showing them to the public for the first time. Puch, KTM, Horex, Ducati and other brands are the names of the machines on display.

Special exhibition: Unterlaussa at that time in sound, images and film.
The history of the village in the Laussatal valley is presented here. Old photographs, sound recordings and films show everyday culture and economic activity in earlier times. The documentation of the expeditions of primary school teacher Kurt Redl to Spitsbergen is also fascinating.

Virtuelles Weißwasser - The branch of the Unterlaussa miners' house in the Reichraminger Hintergebirge
Here, the Weißwasser mining settlement in the Reichraminger Hintergebirge, which was demolished in the 1960s, can be seen and experienced again virtually. This is done using augmented reality (AR) via an app on a mobile phone or tablet.
Over a length of around 800 metres on the display, the houses and barracks, the cable car station, the locksmith's shop, the joinery, the sawmill and the fire station are visible again. Over a length of around 800 metres on the display, the
houses and barracks, the cable car station, the locksmith's workshop, the carpenter's workshop, the sawmill and the fire station garage become visible again.
Please download the app before visiting Weißwasser, as there is no mobile phone reception on site.

Schmidberger Sword and Armour Smiths | Molln

Take a trip to Molln to visit the Schmidten bei der Lacken, an original blacksmith's workshop, farrier's and carriage maker's, and travel back in time to the Middle Ages to discover the fascinating art of blacksmithing. The tour includes the old smithy, the Old Blacksmithing Museum and, of course, the workshop.
Johann and Georg Schmidberger's works of art are created on historic ground. The Schmidten bei der Lacken has been in existence since the 14th century and has been family-owned for 200 years. Johann and Georg produce armour, bladed weapons and chests with extraordinary skill and historical techniques, paying attention to even the smallest details. Props masters, film set designers, enthusiasts and collectors from all over the world are familiar with our traditional business; even the Swiss Guard at the Vatican wears armour and helmets from our master workshop. Bruno Ganz, Klaus Maria Brandauer and Placido Domingo are just a few of the celebrities who have appeared on stage wearing impressive iron garments from our art forge. Be inspired by traditional craftsmanship, which originated here in the 14th century and is still practised with passion today.

Poachers Museum Molln – Jew's harp & crafts | Molln

As Austria's only poaching museum, we present the history of poaching from the Middle Ages to the present day, supplemented by a presentation of the events of a regional tragedy, the Mollner poaching drama. Thanks to the acquisition of the extensive collection of Prof. Dr. Roland Girtler and the Walder brothers, the topic of poaching can be shown in many facets. An extensive collection of rare weapons rounds off the exhibition.

Founded as a craft museum focusing on woodworking and ironworking, the Wilderer Museum Molln offers a unique overview of the history of poaching. Established in 1998 for the Upper Austrian provincial exhibition 'Land of Hammers – Home of Eisenwurzen' in the old vaults of the farm building of the former Molln forestry office of the Steyr manorial estate (now a village inn), our museum has continued to develop. The examination of the development of living conditions in the village and the working world of the villagers as an important aspect of village culture is related to the most important resources of the region: wood, iron and water. A diverse and interesting collection of local specialities awaits you in our museum.

Jew's harp
The manufacture of Jew's harps in Molln can be traced back to 1647 – this long tradition of producing these forged instruments is unique in Austria. This pocket instrument, whose production was recognised as intangible cultural heritage by the Austrian UNESCO Commission in 2014, is the subject of a dedicated exhibition, including a demonstration workshop on jaw harp production. Scythe production also played an important role in the economic development of Molln.

Craft
Woodworking in particular achieved tremendous diversity in Molln – in addition to shovel makers, there were also rake makers, wheelwrights and many more.

The museum is wheelchair accessible, has a large (bus) car park and a disabled toilet. Right next to the museum is the Wirt inn in the village.

Scythe Museum Micheldorf
The Micheldorf Scythe Museum is located on historic ground, right at the roots of industrial history. For over 400 years, scythes were manufactured here and exported by the millions all over the world. Under Caspar Zeitlinger, the scythe forge eventually became
one of the largest industrial enterprises in the entire monarchy. In authentically preserved and originally furnished buildings, it is possible to immerse yourself in the bygone world of Caspar and Josepha Zeitlinger, their family and workers in a rare way. After extensive renovation, the newly designed museum can once again be visited as part of guided tours.

Alpineum | Hinterstoder
Here you will find background information about the history of the Stoder Valley, the dangerous work of the woodcutters, the history of mountaineering in the Totes Gebirge mountains and the development of skiing from its beginnings to the World Cup.
The modern museum building, constructed in 1998, already gives visitors an idea from the outside that this is no dusty 'local history museum', but rather a place where historical and contemporary videos and acoustic effects await them. Establishing connections between the past and the present is the basic concept of the Alpineum with its extremely extensive collection of historical and contemporary exhibits. In an entertaining manner, the past is brought to life and becomes an experience for visitors through exciting text and image design. Prepare to be surprised.
Incidentally, the Alpineum was named one of the best exhibition venues in Europe at the 'Museum of the Year Award 2000'. In addition to the permanent exhibition, the Alpineum continues to surprise with successful special exhibitions on a wide variety of topics.

Horse shoe and chisel forge – Lindermayr Schauschmiede | Spital am Pyhrn

Over 500 years ago, the horseshoe and hoe forge was the 'court forge' of Spital Abbey, and from 1808 onwards, it served as a tool forge for carters, woodcutters and farmers for more than 150 years.
The former court smithy of Spital am Pyhrn Abbey was established in the period after 1300 as a result of trade to and from Venice. The first documented blacksmith, Andreas, still worked for the hospital. Andreas Ferdinand Lindermayr took over the court smithy at a time when the baroqueisation of the abbey promised fruitful work. The artistic lines of the closing grille of the abbey church, which he completed in 1734, became famous.
The blacksmith delivered his orders as far as the middle Steyr Valley, including grave crosses, window baskets, tavern signs and door fittings. His son Matthäus expanded the business to include a milling shop and a general store, and also ran a gunsmith's and watchmaker's workshop.
The renovation carried out for the 1998 provincial exhibition made it possible to set up a show smithy. It also includes an exhibition on the history of the smithy and the blacksmith's craft with interesting exhibits.

Guided tour and blacksmithing demonstration adults € 10.- | school pupils, students, apprentices € 8.- | children under 6 free | groups: 1 free place for every 15 people

Tip: The closing grille of the collegiate church in Spital am Pyhrn, crafted by Andreas Ferdinand Lindermayr, is considered one of the most beautiful pieces of wrought ironwork in Austria. Try your hand at being a blacksmith and work the red-hot iron with a hammer.

Model railway – Pyhrn-Priel Model Railway Club, Spital am Pyhrn

The 40 m² model railway layout has been located in the premises of the Spital am Pyhrn parish since 2014. The layout features not only trains running on a digital system, but also self-driving cars, lorries and buses. On a scale of 1:87, the narrow-gauge railway and a main and branch line wind their way past many attractions, which can be activated at the touch of a button. Many highlights, such as the Wurzeralm, blend into a landscape with a magnificent backdrop. Since summer 2024, the driver's cab of the 4030 series has also been a magnet for visitors, allowing young and old alike to immerse themselves in the world of a train driver on the Pyhrn Railway. In a small railway museum, you can look back on the history of the railway.

Woodcutter for a day | Spital am Pyhrn

Various tasks performed by woodcutters in the past bring you closer to history in an entertaining way – a popular activity that is not only fun for woodchoppers | 3-hour or full-day programme
The three-hour programme playfully recreates various everyday tasks performed by woodcutters: log throwing, who can cut the thinnest slice, who can pull the logs the fastest, which team can hit the nail on the head?
Participants experience some aspects of the woodcutters' work, traditions are passed on and remain in their memories. The focus is on having fun together, and these traditional competitions conclude with an award ceremony.
In the full-day version, this programme is expanded to include a special challenge: participants complete a defined course with an old Steyr tractor, overcoming various obstacles along the way. Our woodcutter's life offers a simply fun and varied incentive. This programme requires no prior knowledge and has no requirements – just join in and have fun!

available all year round | Price upon request | For groups of 8 or more only.

Fire drilling – fire like in the old days | Spital am Pyhrn

Transport yourselves back to a time before lighters and matches existed – how about a campfire?
We usually use fire drilling in training courses, but we are also happy to offer it as part of your incentive program.
Participants learn one of the oldest methods of starting a fire. Using the materials provided – without lighters or matches, of course, but only with the help of a spindle and bow – the campfire is lit together.
This event is particularly suitable for combining with the event module "End of the day around the campfire." There is an obvious additional motivation: after all, the barbecue buffet can only be prepared once the fire is blazing in the fire pit. This originally adventurous challenge awakens the survival instinct in the participants, and, it must be said, lighting a fire with a spindle and bow is simply cool!

Coin minting for special occasions | Spital am Pyhrn

Our coin minting stick and our drop hammer adhere to the specifications of historical originals down to the last detail. Using both methods, you and your visitors can mint individually unique coins "with your own hands."
Minting with a hammer stick is one of the oldest documented minting methods. Metal blanks were minted into coins in this way as far back as ancient times.
Coin minting with a drop hammer dates back to the 17th century and is probably the most impressive form of minting. Here, the coin is minted on both sides, evenly and in the best quality, with a pressure of approx. 60 tons by pulling up a drop weight.

Custom coins with your desired motif
The embossing tool used is manufactured in advance by our engraver, so the motif can be designed according to your specifications. Your visitors can emboss approx. 30–40 coins per hour by pulling the weight.
The blanks are available in various metals—including gold or silver if ordered in advance—with a diameter of 24 and 28 mm.

A popular attraction
Our equipment is mobile and flexible, and can be set up at the location of your choice for any occasion—company party, anniversary, wedding, fair, church fair, or medieval festival.

Between Heaven and Earth - Gerlinde Kaltenbrunner and the World of the 8,000m Peaks

How do extreme mountaineers think and feel? What does it take to climb the highest peaks? What do the 8,000-meter peaks look like from above? You will find the answers to these questions and lots of other interesting information in this extraordinary museum.
The patron of the 400 m² exhibition is Gerlinde Kaltenbrunner, a native of Spital and extreme mountaineer. She was the first woman to climb all 14 eight-thousanders without bottled oxygen.
You can experience what she experienced on the world's eight-thousanders in this museum, which is unique in Europe. It presents the history of alpinism, the physical and mental requirements for extreme mountaineering, and the special features and phases of an 8,000-meter expedition in a vivid and modern way.
In the experience room, visitors get an impression of the extreme altitude and steepness of the walls and feel the force of the wind. Original footage of the avalanche that destroyed the Mount Everest base camp in 2015 is also shown.

The entrance to the museum is located in the monastery building near the K2 sculpture.

Guided herb walks

Wild herbs at St. Sebaldus Herb walk followed by a wild herb snack at Heiligenstein

We hike along meadows and through species-rich forests to Heiligenstein. This
historic hill between Weyer and Gaflenz is home to the popular pilgrimage church of St. Sebaldus with an adjoining snack bar. The path to the 782-metre-high Heiligenstein is lined with flowers and wild herbs. With the knowledge of the herbalist, we look at the colourful flowers and succulent leaves from a culinary and medicinal perspective: nettles can be used to make tasty lemonade, spruce needles help against coughs and dandelions can be used as a coffee substitute.
This herb walk is not only about gathering knowledge, but also about picking herbs and taking them home with you. The treasures you collect can be used to refine curd cheese, sheep's cheese and bread at the Heiligenstein snack bar.

Duration: 2-2.5 hours without return trip
20-50 people | max. 20 people/guide

Adults € 16.- pp, children up to 15 years € 8.- pp, children up to 6 years free
Bookable between May and October. The snack station is open on Saturdays and Sundays.
The wild herb snack at Heiligenstein must be booked separately and is not included in the price.

Edible treasures in the Alps – herb walk with wild Alpine menu at the Schüttbauernalm

The lush pastures around the Schüttbauernalm in the Kalkalpen National Park invite you to linger and marvel: the greenery is good for the soul, the sight of grazing cattle transports us back to times long

past, and the fragrant wild herbs are medicine and nourishment for our bodies. The herbalist accompanying us on the hike will show us which of the plants have special properties and can be used for culinary or medicinal purposes.
With her, we will not only explore some of the secrets of alpine vegetation, but also collect wild herbs for a subsequent tasting during a wild alpine menu at the Schüttbauernalm.

Duration: approx. 2.5 hrs
20 - 50 people | max. 20 people/guide

adults € 16.- pp | children up to 15 years € 8.- pp | children up to 6 years free
Bookable between the end of April and the end of October | The Schüttbauernalm is open from Thursday to Sunday. The wild herb alpine menu at the Schüttbauernalm must be booked separately and is not included in the price.

Please note: The Schüttbauernalm can only be reached by minibus or on foot via the hiking trail from the Vieh-taleralm (6 km). Buses can travel to the Viehtaleralm.

We love weeds for eating. Herb walk in Güldener Märkt'l with wild herb menu at Gasthaus Steineck

The herb walk takes us along the promenade next to the Gaflenz stream to the less touristy 'back side' of the Güldener Märkt'l Weyer. We pay particular attention to those plants that are otherwise overlooked or even considered a nuisance: weeds. Nettles, ground elder and chickweed are full of medicinal properties and taste good too. Once we have learned to appreciate these wild herbs and their value, we may even welcome them into our gardens.
So that we can taste the 'weeds' not only fresh from the meadow, the Steineck restaurant will prepare a menu with wild herb garnishes for us on request.
Duration: 1-2 hours (as desired)

20–50 people | max. 20 people per guide

The path is paved, with no significant inclines and easy to walk on.
Adults €14 per person | Children up to 15 years €6 per person | Children up to 6 years free
Bookable between the beginning of March and the end of October
The (wild herb) menu at Gasthaus Steineck must be booked separately and is not included in the price. Closed on Tuesdays.

Alpaca treks | St. Ulrich

Before the walk begins, you will get to know our alpacas by petting, haltering and feeding them. Then you're ready to go! Depending on the number of participants, a maximum of two people will lead one alpaca together – but usually everyone can walk with their own animal. When you return from the tour, you can say goodbye to 'your' alpaca. Because our animals love both the beautiful summer flower meadows and the winter snowy landscape, our walks take place all year round.
Larger groups of all ages are also welcome!

Alpaca walks – Griessner Alpaca Adventure Farm | Molln

On our alpaca treks, you can truly unwind and relax. And all this in the heart of the beautiful Kalkalpen National Park.
Why should you go alpaca trekking? When it comes to outdoor sports, the motto is often: higher, faster, further. But it doesn't always have to be a competition. With us, patience is required, your laughter muscles will get a workout and you can enjoy the peace and quiet of nature!
Afterwards, you have the opportunity to purchase high-quality products made from alpaca wool in our farm shop.

Alpaca walkers are welcomed by Karin and Christian upon arrival and accompanied to the alpacas. The two share interesting facts about the New World camelids and everyday life on the farm. The alpacas are introduced 'personally' and, after getting to know them, are haltered – then the tour begins.
The route is an approximately 3-kilometre circular trail over the 'Hungersbühel', over asphalt and gravel – over 'sticks and stones' – with magnificent views.

Duration of the tour approx. 60–75 min, with everything included approx. 2 hours.
Group prices on request.

Guided tour at Lindenboden Alpacas

After a welcome and introduction to the farm, visitors are taken to see the alpacas. They learn interesting facts about these New World camelids and about everyday life on the farm.
The alpacas are introduced 'personally' and can also be fed with treats from the farm. Afterwards, you can browse the farm shop and purchase alpaca products ranging from knitting yarn to duvets and high-quality alpaca clothing.

Lama trekking in the national park community of Molln

Animal hiking and leisure experiences with llamas on the edge of the Kalkalpen National Park. After a short introduction and getting to know the hiking llamas, we lead our woolly companions by halter and lead through the impressive, diverse, almost untouched nature of the region and hike – depending on the tour variant – on farm tracks, hiking trails and forest roads across species-rich meadows and through old beech forests. The purpose of the llama hikes is above all to enjoy the adventure, the experience and the encounter with these wonderful animals in harmony with nature.
Depending on the number and age of the participants, we lead the llamas alternately, in pairs or alone.

Equipment: Sturdy shoes, clothing suitable for the weather (rain or sun protection), rucksack with snacks & drinks, 1 apple/carrot for the llamas.

Natural spectacle "So close to heaven – Unterhimmler Au" | Steyr

A paradise garden for workers, farmers and nobles

The floodplain along the Steyr River is a fascinating natural and cultural landscape. Numerous cultural monuments bear witness to its use as a habitat, as do its natural treasures. Its water "is the most beautiful I have ever seen, always green, like Alpine meadows turned to liquid," Julius von der Traun once wrote about the Steyr. The lively river inspired Franz Schubert to compose his Trout Quintet – and we too can feel the vitality of the Steyr River in this NATURAL SPECTACLE...

These are the highlights of our tour:

- Ride on the Steyrtalbahn railway (Steyr local station – Pergern, duration 18 minutes)
- Ice Age-shaped surface with terraces, conglomerate walls and caves, where you can often find Alpine driftwood
- Dynamic course of the Steyr river with gravel banks and wonderfully clear water
- Forests: riparian forest, oak-hornbeam forest, red beech forest
- Semi-dry grassland
- Centuries-old cultural landscape with an astonishing variety of habitats for plants and...

Sleeping Beauty Garden | Bad Hall

The Sleeping Beauty Garden is located in our beautiful spa town of Bad Hall. As soon as you enter our garden, you're greeted by a dreamlike display of roses, which form a wonderful symbiosis with clematis and companion perennials.
Our garden, which we began creating in 2005, was gradually expanded. The dream pergola became a reality, adorned with the Kir Royal climbing rose. In 2016, we had the opportunity to lease an adjacent meadow with a few old fruit trees. With a lot of hard work, we gradually created beautiful garden spaces. Our love for old things is evident throughout the garden.
Eupatorium, speedwell, anemones, asters, phlox, grasses, and more come together to form a sea of flowers. Hydrangeas and hostas thrive in the shaded areas of our gently sloping garden. The romantic atmosphere is enhanced by the gentle splashing of an antique fountain and a spring stone.
There's a special spot for relaxation at the far end of the garden—a summer cottage that my husband built for me. One of our favorite places to sit is under the old quince tree.
Our garden is a place to enjoy and linger. It enchants everyone who takes the time to experience it. From spring through fall, we look forward to welcoming you and letting the Sleeping Beauty Garden inspire you.

Open Garden Days: May 22 & 23 | June 5 & 6 | September 25 & 26, 2027 | 10 a.m.–5 p.m. each day

Nature walks (orchids) in the Himmelreich biotope

On a guided walk through the diverse habitats of the Himmelreich biotope and the 'Himmelreich Protected Landscape Area', you will learn many interesting facts about the local fauna and flora. The short hike takes you from the wet meadow with globeflowers, cotton grass and orchids, across mountain meadows with medicinal primroses, fire lilies and various native orchids, to small ponds with yellow-bellied toads and grass snakes, bog bean, pond lilies and water lilies. It is rare to find so many species in such a small area. Old native fruit varieties and a rich animal (insect) world complement this gem of the Kremstal valley. You will also learn a lot about the development of the local cultural landscape and the work of the 'Berg-ma(n)dl' landscape conservation association in Micheldorf.

Raft building with raft trip and treasure hunt | Spital am Pyhrn

Teams of three to eight pirates build their rafts from the materials provided. Flying their own flags, the crews then set sail on the wide lake to search for the hidden treasure.
Safety is of course ensured, with all participants receiving a life jacket and the rafts being checked again by our trainers on request.
The buccaneers proudly row their vessels across the water. First, however, they must face the challenge of building the rafts, lending a hand and trying out how their ideas can be put into practice. What remains is the good feeling of having achieved something together – and not having sunk in the process.
Raft building offers you, the client, interesting insights: Working together on the project reveals individual approaches and thus also talents and skills for specific tasks in your company.
The flag is particularly suitable for displaying identity-building elements such as a company motto, logo or newly developed slogan. At the end of the trip, the flags are ceremoniously presented to the respective teams, who take them back with them to their everyday lives after the event.

Duration approx. 3 hrs | 5 - 60 participants
€ 850.- flat rate for up to 12 participants, excluding 20% VAT.

Footgolf for the whole family at the Dilly Golf Club | Windischgarsten
Here, the iron is exchanged for a strong foot. And the round must go into the round. The rapidly growing sport from the USA has also found its way to us.
The new trend sport: footgolf is a ball sport that combines elements of football and golf.
Footgolf is mainly played without the presence of a referee or umpire. The game is based on the honest efforts of each individual player to be considerate of other players and to play by the rules. All players should behave in a disciplined manner and demonstrate courtesy and sportsmanship at all times, no matter how ambitious they may be. This is the 'true spirit of footgolf'; the spirit of the game.

€ 25.- pp, incl. soccer ball rental | min. 8 people (depending on the number of participants)
Apr.–Oct. | Duration: approx. 2 hours | 18-hole round
Wear athletic clothing; no soccer cleats!

Flintstone car – build a vehicle from the Stone Age | Spital am Pyhrn
You're probably familiar with soapbox races, but the Flintstone car is exclusive to Adventure Management.
Poles, boards, ropes and wheels are the simple raw materials for this fast-paced adventure. Add to that creativity, team spirit and commitment as teams of five to ten people design and, of course, build their own Stone Age speedsters. The results of their joint efforts are put to the test in the grand finale, a race for the treasure chest.

The difficulty level of the construction phase can be adjusted as desired. As the client, Flintstone car building offers you interesting insights: working together on the project reveals individual approaches and thus also talents and skills for specific tasks in your company.
The individual vehicles are decorated with customisable banners – these are particularly suitable for displaying identity-building elements such as a company motto, logo or newly developed slogan. After the race, the respective teams are ceremoniously presented with their banners, which they take back with them to their everyday lives after the event.

Now new: on request, we offer matching, stylish clothing. Costumes for the Geröllheimer and Feuerstein families are available, including all family members. As a special highlight, they can be worn during the race or even during construction.

Höss Disc Golf

Disc golf combines fun, sport and closeness to nature! Nine courses in Hinterstoder at the Mittelstation provide fun for young and old alike.
The game is played with a type of Frisbee disc – called a golf disc – which is thrown into disc golf baskets with as few throws as possible.
The basic rules are simple and very similar to ball golf:
The player who has taken the fewest throws after completing all the holes wins! The game starts from the tee of each hole. Play continues from where the disc lands. This continues until the disc reaches the disc golf basket. The player who took the fewest throws on the previous hole always starts at the tee of the next hole. After the tee shot, the player who is furthest from the target continues playing, even if they need a few more throws than their fellow players. Once the disc lands in the disc golf basket, the hole is completed and the number of throws required is noted. All holes on the course are completed in the prescribed order.
The player who has used the fewest throws after completing all holes is the winner.
Disc golf is also perfect for a club outing. For groups of 10 or more, please book in advance.

Prices include disc rental: Adults € 9.50 | children € 5.- | A deposit is charged for disc rental. Discs can be rented at the Höss-Salettl.

Team Biathlon – Only One Can Win | Spital am Pyhrn

And the winners are... Here, each and every individual is challenged to prove their skills.
The course is set up in advance. The individual stations are presented in preparation, for example, giant slingshot, archery, team skiing and tin can throwing.
After a short warm-up round, the participants form smaller teams. These teams then set about completing the course together in the form of a relay race. Team spirit and commitment are required, because of course the time taken at each station is recorded.
The focus is on having fun, laughing together and mastering the tasks as a team. The ceremonial crowning of the winning team is the natural conclusion to this classic team competition.
An eventful day outdoors, with plenty of material for stories and shared memories.

Team course in the forest rope garden | Broadening perspectives | Spital am Pyhrn

We mainly use the team course for training purposes, but we are also happy to offer our forest rope course for your event. Rope stations set up between trees offer the right elements for every level of fitness.
Equipped with a climbing harness and helmet, two people climb different stations and are secured by the other participants. The challenges allow you to recognise your own limits, invite you to push them and step out of your comfort zone.
You can choose between the pirate net, the sky ladder, box climbing, the ladder pole and Jacob's ladder. Popular highlights include the giant swing and the 130-metre-long ride on the Flying Kiwi.
A special adventure for all those who don't leave their comfort zone too easily. You are slowly introduced to the challenges, overcoming and expanding your limits. The team course promotes communication within the team and builds trust among its members.

Duration approx. 3 hours.

OUR NATURAL GEMS, CYCLING & HIKING TIPS

Traunviertel Tour

E-bike leisure tour in 7 daily stages covering approx. 462 km and approx. 5,000 metres of elevation gain from/to Steyr
Along the way, you can explore the regional, cultural and culinary highlights at your own pace along rivers and lakes.

The Traunviertel Tour offers even more – divide the route into two loops:
'KulTOUR Route': Steyr, Schlierbach, Grünau, Gmunden, Kremsmünster, Bad Hall, Steyr (stages 1–4)
'NaTOUR Route': Steyr, Großraming, Hintergebirge, Windischgarsten, Hinterstoder, Molln, Steyr (stages 4–7)

Steyr Valley Cycle Route R8 – a nature experience for the whole family

The R 8 family cycle path runs close to the River Steyr with its bathing spots, rest areas, adventure stations, viewpoints and canyons – from Steyr in the north to St. Pankraz in the south. The Steyr Valley Cycle Path is also very suitable for families as it is largely flat. Steam locomotives once roared along here:
The Untergrünburg - Klaus section follows the route of the Steyr Valley Railway almost continuously. Today, this is operated as a museum railway between Steyr and Grünburg.
To the north, the tour can be extended to the town of Steyr. To the south, the tour can be extended from St. Pankraz on the National Park Cycle Route R 31 via Windischgarsten to Spital/Pyhrn. Or you can connect the R 31 with the Hintergebirgsradweg R 8 and the Ennsradweg R 7, thus completing the loop in Steyr. North of Klaus, the Steyrtalradweg connects to the Kremstalradweg R 10.

Insider tip: The ideal start to a cycling tour in the Steyr Valley is to take the Steyr Valley Museum Railway from Steyr to Grünburg on weekends from June to October. Bike transport is free!
Train information: phone 0676/5368717

Enns Cycle Path R7 – from the national park to the Danube

This section of the 263 km Enns Cycle Path leads through the hilly landscape of the Kalkalpen National Park region to the town of Steyr and on to the confluence of the Enns and Danube rivers near Enns.
TIP: Variant from Unterlaussa via the Hintergebirgsradweg R 9 cycle path through the forest wilderness of the Kalkalpen National Park to Reichraming.
Highlights: Ennstal National Park Visitor Centre in Reichraming, Gruber Carriage Museum in Großraming, Valley of the Feitelmacher in Trattenbach, historic old town of Steyr

---

Hintergebirgsradweg R9 cycle route – following in the footsteps of the forest railway

The 54.4 km Hintergebirgsradweg cycle path is undoubtedly one of the most beautiful cycle routes in Europe. It is a leisurely ride along the flat gravel path beside the
Großer Bach stream into the heart of the national park. Much of the route follows the former forest railway line. It ran through the Hintergebirge mountains for the last time in 1971. Adventure stations, reconstructions of a wooden giant and a Lafthütte hut, and the numerous tunnels make the cycle tour particularly appealing. (622 m elevation gain)

Trans National Park | 240 km and 7,400 metres of elevation gain

The TRANS NATIONALPARK leads from Steyr to Johnsbach. From the Upper Austrian Ennstal valley through the Kalkalpen National Park to the Pyhrn-Priel holiday region and on to the Gesäuse National Park in Styria – across the hilly landscape of the Alpine foothills. The extraordinary landscapes of the national park and its surroundings promise unique experiences.

All information about the route and the corresponding GPX tracks can be found at www.transnationalpark.at

Climbing courses in the Ennstal valley

Vertical nature experience

We offer courses and tours for beginners, advanced climbers and children at the numerous climbing rocks in the surrounding area. The climbing courses are offered regularly and provide a special experience in nature. Overcoming your own limits, reaching the top and often even surprising yourself is a really great feeling!
We offer tailor-made adventures for school classes, companies and clubs. These take place either on an artificial climbing wall (Großraming Climbing Centre) or on rock faces in the Enns Valley. The focus here is on learning basic climbing and safety techniques, but also on promoting 'togetherness' and strengthening the team. In climbing in particular, mutual trust is very important, as is mutual support and taking responsibility.
In all our courses, we also attach great importance to teaching about nature and raising awareness of our beautiful environment, which we must protect.

IVV circular hiking trail Town square – Christkindl – Tabor | Steyr

Starting points: Tourist Office/town square and Tabor sports hall
Your route takes you from the town square to Lamberg Castle, continuing along the promenade and through the castle grounds, past the museum railway station to the Christkindl pilgrimage church. Through Unterhimmler Au and Fabrikstraße and across the moat, you arrive at St. Michael's Church and, via the Schnallentor gate, at Tabor. Descend to the Rederbrücke bridge, follow the Paddlerweg path, cross the Schönauerbrücke bridge, pass through the Neutor gate and return to the starting point.

Route length: 11 km (route map available at the start)

At Damberg | St. Ulrich

The local mountain of the Steyr residents – only 5 km from the city centre – offers optimal relaxation for the whole family. A walk to the Dambergwarte and a cosy stop for refreshments afterwards will let you forget the hustle and bustle of everyday life.

Duration approx. 40 min (Damberg/Schoiber – Dambergwarte) | Further hiking routes signposted!

Natur Aktiv Weg Ennsufer

The Nature Activity Trail along the banks of the Enns in Ternberg offers unexpected insights and views. Insights into the flora and fauna near the riverbed, where beavers, forest ants and water birds have their habitat. Views of the Enns, which presents itself in refreshingly new perspectives. The selective route also inspires athletic walkers and trail runners. On hot days, the hike through shady forest sections is a welcome refreshment.
Starting point either Ternberg or Dürnbach railway station | Walking time between 1.5 and 2.5 hours.

Dr. Vogelgesang-Klamm | Spital am Pyhrn
The longest gorge in Upper Austria and the second longest gorge in Austria!
Experience the natural spectacle of cascading water in Upper Austria's longest gorge, which is over 1.5 km long from the ticket office and 2.7 km long from car park 2, with 500 wooden and stone steps. The gorge is also the starting point for the 3-hut hike (Bosruckhütte, Rohrauerhaus and Hofalm).

The Dr. Vogelgesang Gorge is suitable for small children and older people with the appropriate fitness level and hiking experience. After the exit, you will reach the international long-distance hiking trail (E 601 via alpina), where you can enjoy a beautiful and popular circular hike. If you are a little tired from the climb, you can rest at the Bosruckhütte, the Rohrauerhaus or, before the descent to Spital am Pyhrn, at the Hofalm and enjoy some good home cooking.

There are approximately 500 steps to climb when walking through the Dr. Vogelgesang Gorge. These steps and footbridges are always thoroughly checked before the gorge opens at the beginning of May and are well maintained throughout the summer so that visitors can safely and securely experience the natural spectacle of the cascading water. In 2006, the gorge celebrated its 100th anniversary.

Gleinkersee | Roßleithen
Lake Gleinkersee, a charming little pre-Alpine lake, is the perfect place to take a deep breath and unwind. Surrounded by lush green meadows and healthy forests, Lake Gleinkersee is an idyllic mountain bathing lake.

Gleinkersee bathing paradise and world of legends
There is no question that Lake Gleinkersee is a paradise for all water lovers. No matter how cold it may be in winter, in summer it quickly reaches pleasant temperatures. It is not without reason that it is considered one of the warmest mountain lakes in Austria, reaching temperatures of up to 25 degrees. The large sunbathing lawn with panoramic views of the region's mountains offers enough space for relaxed sunbathing with the whole family, even on hot summer days. There is also a playground for the little ones. Three jetties guarantee a gentle dip in the green-shimmering, monthly tested water of Lake Gleinkersee. And if you're looking for a little variety, you can explore the farthest corners of the lake by surf bike, pedal boat or rowing boat, or learn about the legends and myths of the region on a tour with the large Saga boat.
Lake Gleinkersee is also an ideal starting point for numerous hikes. Whether to the Dümlerhütte, the Seespitz, the Warscheneck, the Wurzeralm or simply on leisurely paths around the lake or to the impressive source of the Pießling.

PILGRIMAGES

Christkindl pilgrimage church

The centerpiece of the world-famous pilgrimage site "Christkindl" is the Baroque pilgrimage church. The church was built at the beginning of the 18th century by Carlo Antonio Carlone and Jakob Prandtauer and consecrated in 1725 by the Bishop of Passau, Joseph Dominikus Lamberg. The focal point is the ten-centimeter-tall wax figure of the Christ Child in a small shrine.

History

In 1695, Ferdinand Sertl, a seriously ill tower keeper and chapel master, placed a small wax figure of the baby Jesus in the hollow of a spruce tree. He visited this place several times a week to pray. When he was miraculously cured of his epilepsy, so many pilgrims came that it became necessary to build a church. The name "Zum Christkindl unterm Himmel" (The Christ Child under the Sky) was chosen. The present church was begun in 1702 by Carlo Antonio Carlone and completed in 1708 by Jakob Prandtauer.

The miraculous figure, a standing baby Jesus only 10 cm tall, made of wax and holding a cross and crown of thorns in his hands, is now located on the high altar in a small shrine above the tabernacle, which is shaped like a globe.

Opening hours Advent (page 56)

Please allow at least 1 hour for your visit to Christkindl (church/nativity scenes/post office)!
Registration for groups is essential all year round!

Reservation fee for nativity scenes and/or church € 70.- per group with a maximum of 50 people.

Christkindl Pilgrimage - Christkindl – Garsten – Steyr – Christkindl

From the pilgrimage church in Christkindl, you will embark on a pilgrimage in the footsteps of Ferdinand Sertl, whose healing led to the founding of Christkindl. The first stage leads to Garsten (walking time: approx. 1 hour), where Anselm Angerer, the builder of Christkindl Church, was abbot of the Benedictine monastery at the time. The route then continues along the River Enns to Steyr and the parish church, where Ferdinand Sertl was town bandmaster and supervisor of the fire station at the town parish tower. (Walking time: approx. 50 min). The last stage leads back to Christkindl, where Ferdinand Sertl was cured of epilepsy after patient prayer. (Walking time: approx. 30 min).

Total walking time approx. 2.5 hours

Information about guided pilgrimages is available from the Christkindl parish office.
The pilgrimage route is marked with white and green signs and is accessible all year round.

Garsten Collegiate Church & Museum

The former Baroque collegiate church in Garsten is well worth seeing. The adjoining rooms, which include the summer choir, chapter house, Losensteiner Chapel, and sacristy, house an exhibition of sacred objects and works of art by M. Rittinger (boxwood nativity scene), Johann K. von Reslfeldt, and others.

The church is open to visitors. Guided tours: Registration required, duration 1–1.5 hrs | € 6.- pp for groups of 10 or more, group rates available on request

Pilgrimage church Maria Neustift
Maria Neustift is a place to pause and reflect. When visiting the pilgrimage church and quietly contemplating oneself and the almost life-size statue of the Virgin Mary from 1450, one senses that the impossible seems possible.
Above the high altar sits the statue of Mary with the Child and the words "Holy Mary, Mother of beautiful love and holy hope, you who bring healing to the sick in Neustift, pray for us."

Church tours by appointment at the parish office

Tip: short spiritual hike along the barrier-free Heilsweg trail with unique panoramic views of the Sengsenge Mountains (approx. 30 min – can be hiked in street shoes) and three selected chapel trails to Maria Neustift's special places (between 50 min and 2h 15 min).

Pilgrimage church Heiligenstein | Gaflenz
The pilgrimage site to St. Sebald, visible from afar high above Gaflenz, has been unique since the 15th century. The mountain church on the 782 m high hill between Gaflenz and Weyer is the only Sebaldus church in Austria. St. Sebald is considered an intercessor in times of illness and misfortune, a patron saint of livestock, and even a matchmaker.
In 2013, the Heiligenstein themed trail was opened: at several stations in and around the church, visitors can learn the most important information about the history of the mountain sanctuary, its significance as a place of pilgrimage, and the work of St. Sebald.
Several hiking trails lead romantically through woods and fields and invite visitors to visit the church and the snack bar. Since 2020, Heiligenstein has been the highlight of the Sebaldusweg trail through the national park region, and in 2024 the Sebalustour—a pilgrimage by bike—was opened.

Church tour of the "Pyhrn Cathedral" | Spital am Pyhrn
With the collegiate church, important artists of the Austrian Baroque created a total work of art full of astonishing harmony. Domenico Antonio Carlone decorated the interior of the church with his calm color scheme and magnificent stucco pilasters. The frescoes by Bartolomeo Altomonte in the presbytery represent a highlight of Baroque church painting in Upper Austria. The closing grille made by Andreas

Ferdinand Lindemayr is considered one of the most beautiful pieces of wrought ironwork in Austria. Artistic sensibility and faith have created such a magnificent house of worship.
North of the church, in the so-called "Dechantstöckel," is the treasury of the former Spital Abbey. Documents, vestments, and liturgical objects were kept there. Now, particularly valuable sculptures, chasubles, and historically significant documents relating to the abbey and the two churches can be viewed in the treasury.

The crypt beneath the presbytery of the collegiate church was the burial place of the canons of Spital am Pyhrn. From January 25 to May 15, 1945, the entire gold treasure of the Hungarian National Bank (33,000 kg) was stored here. The crypt was restored in 1992.

Guided tour of St. Jakob parish church | Windischgarsten
The parish church of St. Jakob Windischgarsten was consecrated on August 14, 1462, but has undergone many changes over the centuries!
A major renovation of the parish church in Windischgarsten took place in 1992. Worth seeing in the parish church of St. Jakob Windischgarsten are the altars and the pulpit, the Marian chapel as a chapel of worship, the organ, and the Schoiswohl cross.

Guests appreciate the church park with its psalm trail, which invites meditation. The parish of Windischgarsten, which is made up of various communities, is very lively. Many contribute to the life of the parish, and ways are constantly being sought to bring the eternal message of God's love to all people. Contact with people, a healthy spiritual life, and love for the church are important. Guests in our region are also regularly invited to participate in church events.

Sebaldusweg – Path of Appreciation | Upper Austrian Ennstal Valley
The Sebaldusweg trail leads from Großraming via Losenstein, Laussa, Maria Neustift, and Gaflenz to Weyer, over the hills and heights of the national park region. Here, where nature can unfold its full beauty, where foresight and insight go hand in hand, there is much opportunity for insight and appreciation.
The wonderful Ennstal National Park region with its magnificent panoramic views offers a splendid backdrop for slowing down and becoming aware of the true values and priorities in life.
The theme of "appreciation in everyday life" accompanies pilgrims at every stop, with practical ideas helping them to find an attitude of appreciation and take it home with them into their everyday lives.

Benediktweg
Back in 2009, on the occasion of the 200th anniversary of the repopulation of the Benedictine Abbey of St. Paul in the Lavant Valley, a pilgrimage route named after St. Benedict of Nursia, the patron saint of Europe, was established along the path once taken by the monks. The Benedict Way is a path of encounter and movement in many ways: with culture, art, monasteries, nature, and people. It seeks to connect me and all who walk it with God, with each other, and with myself.
The trail allows you to find peace and inner reflection, experience community and hospitality, but also feel transformation. And it teaches you to perceive creation more consciously.
The "Ursprungsweg" (Path of Origins) leads from Spital am Pyhrn to St. Paul in the Lavant Valley and back again. In 2011, it was extended to Gornji Grad (Slovenia). In cooperation with other pilgrimage routes, it should eventually be possible to walk "in the footsteps of St. Benedict from monastery to monastery through Europe" to Montecassino (central Italy), the mother monastery of the Benedictine Order and the tomb of St. Benedict. And from there, it will also lead north to Pluscarden, the northernmost European (and Scottish) Benedictine monastery.

Benedict Pilgrimage Trail Kremstal
The Benedict Pilgrimage Trail Kremstal is a circular route that branches off from the main Benedict Pilgrimage Trail Schlierbach and leads through the beautiful Upper Austrian Kremstal valley over a distance of 50 km and three days.

Nestled in the beautiful valley landscape are the villages of Schlierbach, Nußbach, Wartberg, Inzersdorf, Micheldorf, and the district capital Kirchdorf. The route through these villages is mostly very moderate and flat, with only the ascent to the Grillparz—a magnificent vantage point over the entire valley—and the path up to the Magdalenaberg church involving some elevation gain.

The trail leads from the Cistercian Abbey of Schlierbach past Dorff Castle through the villages of Hofern and Ellersbach directly onto the new dam path from the retention basin in the Krems floodplains. Along the Krems River, there are wonderful rest areas where you can pause, enjoy the scenery, and recharge your batteries. The frequent changes in perspective are also impressive, with the Cistercian Abbey of Schlierbach, Magdalenaberg Church, Georgenberg, and Altpernstein Castle showing themselves from their best sides, yet the fascination remains the same.

Start and finish location: 4553 Schlierbach

Cistercian Abbey Schlierbach - Guided tour of the abbey & tasting

A guided tour of Schlierbach Abbey is a journey of discovery into a unique world whose power and fascination remain alive to this day. What began half a millennium ago unfolds today in all its Baroque splendor: From the magnificent abbey grounds to the abbey library with its 12,000 valuable books. You'll see the world through different eyes.
As part of the abbey tour, we'll show you the abbey grounds, including the Bernardisaal, the library, the abbey church, the cloister with the Schlierbach Madonna, as well as the Margret Bilger Gallery and a glass art exhibition. Finally, guests will sample the various organic cheese specialties from Schlierbach at the Panorama Cafe & Lounge.

Duration: approx. 2 hrs.

Guided tours are available daily by appointment. | Minimum of 4 people.
You can also explore the abbey on your own using our "Hearonymus" audio guide. The audio guide is free to download—just download it and you're ready to go.

Mon–Sat 9 am–6 pm | Sun 9 am–1 pm
Abbey tour: € 19.20 pp | Groups of 15 or more: € 18.50 pp

Visit our Panorama Cafe & Lounge even when there are no abbey tours taking place and enjoy the view over the Kremstal Valley. Here, you can not only enjoy pastries from "echt Knogler," but also our "Stiftskaffee," which is roasted especially for Schlierbach Abbey.

Our group packages for groups of 15 or more:

Panoramic Breakfast and Abbey Tour
Start your day with a hearty panoramic breakfast buffet, including hot beverages and pastries. From sweet to savory—there's something for every taste. Take advantage of this offer before your Schlierbach Abbey tour at our Panorama Cafe & Lounge.

Nativity scenes in the Christmas Town

Nativity scene exhibition in the Palm House

Highlights of nativity scene art

Highlights of the exhibition in the Palm House include the Baroque Lamberg nativity figures and the so-called "wagon nativity scene" by Josef Seidl from the Mühlviertel region, which was created especially for the "Light into Darkness" campaign. This "rolling nativity scene" was installed in an ÖBB railway carriage and traveled through Austria, Liechtenstein, Italy, and Germany during Advent in 1992 and 1997 as an advertising medium for the ORF charity campaign "Licht ins Dunkel." Both nativity scenes are sure to delight young and old alike with their wealth of figures and details.
The Baroque nativity scene from Lamberg Castle, together with its precious collection of figures, comes from the family estate of Count Josef Lamberg. It was donated to the Steyr City Museum in 1914 by his wife Anna, the daughter of weapons factory founder Josef Werndl. Today, the valuable collection comprises more than 200 clothed figurines, most of which came from various church nativity scenes. There are interactive stations for children and families in the exhibition, appropriate for the Advent season.

There are hands-on activities for children and families during the Advent and Easter seasons.
Admission: voluntary donation

Exhibition "Nail smith cribs & cribs of all kinds"

The Steyr Goldhaubengruppe (Goldbonnet Group) is once again exhibiting the traditional nail smith cribs typical of the Steyr and Enns Valley region. All of the exhibits, whether newly designed in recent years or old pieces from private collections, are on loan from the Goldhaubenfrauen (Goldbonnet Women).
In addition to the works of art, the Goldhauben women offer homemade delicacies such as cookies, jams, and crackling lard, Christmas handicrafts, folded paper stars and angels, as well as small nail smith nativity scenes that can also be used as pictures. Coffee and delicious cakes as well as tasty soups will be provided for your physical well-being. A delicious surprise will further sweeten the exhibition for visitors. The proceeds from the sale will be donated to social causes.

Nov. 25 - Dec. 8, 2027 | Daily from 10 am - 4 pm | Town hall courtyard | Free admission!

Hunter's nativity scene at Teufelsbach

The open-air nativity scene at Teufelsbach in the Wehrgraben district, near the museum railway station, was founded in 1996 by Siegfried Jäger. After his death, responsibility for the nativity scene was transferred to the Steyr emergency shelter in 2004. During his lifetime, Mr. Jäger was promised that the name "Jägerkrippe" would remain. Life-size wooden figures are redecorated every year. The nativity scene is run as an employment project, with the voluntary requirement that no alcohol be served. In 2006, the first items produced in the creative workshop began to be offered for sale at the nativity scene. This involves the residents of the emergency shelter in all aspects of the work, providing a sense of achievement for everyone and an unusual attraction for Steyr.

Creative shop & punch stand in aid of the Steyr emergency shelter on Advent weekends, Sat & Sun + December 24 | 1:30–5 pm

Pilgrimage church Christkindl
In 1695, Ferdinand Sertl, a seriously ill tower keeper and chapel master, placed a small wax figure of the baby Jesus in the hollow of a spruce tree. He went there several times a week to pray. When he was cured of epilepsy, so many pilgrims came that it became necessary to build a church. The name "Zum Christkindl unterm Himmel" (The Christ Child under the Sky) was chosen. Construction of the present church was begun in 1702 by Carlo Antonio Carlone, and in 1708 Jakob Prandtauer took over the building work. The miraculous figure, a standing baby Jesus made of wax, only 10 cm tall, holding the cross and crown of thorns in his hands, is now located on the high altar in a small shrine above the tabernacle, which is shaped like a globe. Church services: Sundays and holidays at 9 a.m.

Nativity scenes in Christkindl
Pöttmesser Nativity Scene – one of the largest nativity scenes in the world
The oriental landscape nativity scene covers an area of 58 m² and offers enough space for the 778 beautifully carved and dressed figures, measuring up to 30 cm in height, created by South Tyrolean artist Ferdinand Pöttmesser (1895-1977). The landscape mountain was lovingly designed afterwards by Josef Seidl from Steyr.

Mechanical nativity scene built by Karl Klauda (1855-1939)
Thanks to the unique mechanism with bicycle chains, shafts, and gears, almost 300 figures carved from lime wood move through a detailed biblical landscape.

Opening hours + prices → see Christkindl Pilgrimage Church
Registration for groups is essential! Available all year round with advance booking!

51st Garstner Advent
For everyone looking for something special
Garstner Advent is one of the most beautiful in the country. It has been held since 1977 and takes place against the picturesque backdrop of the baroque monastery.

Traditional market at Platzl
The market is known for its cosy and inviting atmosphere and is a meeting place for young and old alike. Farmers, bakers, beekeepers, hunters and chocolatiers offer delicacies from the rural region at the market. Mulled cider, punch and herbal tea are made according to old family recipes. At Platzl, woodcarvers, artists and blacksmiths present "living crafts", and carpenters work with round timber using traditional chopping techniques. "Living arts and crafts" such as glass painting and wooden jewellery are on display in the community event hall and in the Garsten primary school.

Various special exhibitions (will be published in good time at www.garstner-advent.at)

Garsten Collegiate Church
The collegiate church was built by the master builders Carlone between 1677 and 1685 and is one of the most beautiful High Baroque buildings in Austria. Tapestries of Dutch origin (1675), Lenten veils by Schmidt of Krems (1777), the Losensteiner Chapel (burial place of the Losensteiner family), the sacristy and the summer choir are the special works of art.

Group tours available all year round, page 42

Garstner Nativity Scene Tradition
In the exhibition "Fascination Nativity Scenes," you can see precious nativity scene art, typical Garstner blacksmith nativity scenes, and movable nativity scenes. The nativity scene school presents the most beautiful coursework. Artistically painted wooden figures are set up around the village to show the way to the nativity scene. The "boxwood nativity scene" by Marian Rittinger (1705) can be viewed in the Abbey Museum.

27/28 Nov + 4/5 + 8 Dec 2027 | 10 am – 7pm (exhibitions until 5:30 pm) | Admission: voluntary donations | Thomas Grumböck | phone 0043 676/4046336 | garstner.advent@gmx.at | www.garstner-advent.at
